

# The Maryland Orchid Society Newsletter

A monthly newsletter for the members and friends of the Society

2017

Website: [www.marylandorchids.org](http://www.marylandorchids.org)

## President's Message

For those of us who put our orchids outside for the summer, it is soon time to think about bringing them inside the house or returning them to the greenhouse. It is very important to remember to check for "critters" that need to stay outside. Inspect, inspect, inspect and inspect each plant, particularly at the base of pseudobulbs, sheaths, leaf axis and upper and lower surfaces of leaves. Tap pots on a hard surface to check for ants. Spray with an insecticide/miticide/fungicide now and again before bringing your plants inside.

As you take inventory of your plants and attempt to visualize where you are going to put them when returning them to their winter habitat, remember that our upcoming auction is November 11. Aaron Webb, Joan Roderick and I will be glad to accept your extra or unwanted, disease free, pest free plants. Donations are tax deductible.

Please consider volunteering to assist with our auction. Any and all help will be appreciated. The annual auction is our major fund-raising event of the year. We have a new venue this year... the Knights of Columbus Hall, 1010 Frederick Road in Catonsville, Maryland.

Our display at the NCOS show and sale, was outstanding... as always. Thank you to Valerie Lowe, Sarah Hurdel, all MOS volunteers and those who lent plants to make this event a beautiful success.

Thank you to David and Margaret Smith for hosting and leading the MOS members potting clinic on October 14. This is a great time to divide some of those plants that are out-growing their pots. Divisions make great donations to the Auction.

Enclosed in this Newsletter are forms for our annual award nominations. Nominees are selected by members, to honor members who have given of their time and energy, in service or leadership to the Maryland Orchid Society. Ballots will be collected at the October 19th meeting. The MOS Board will tally the nominees at the October 26th Board meeting and recipients for the service award and leadership award will be determined. Awards will be presented at the December 21st meeting. Please... get to know your fellow members and consider your nominees for these awards. Current officers should not be considered.

**REMINDER...**membership renewal dues must be current if you are displaying plants on the October 19, 2017 show table. Dues and completed renewal forms can be given to Marilyn Lauffer or myself at the October meeting.

**Leon Glicenstein Ph.D.**  
Jewel Orchids  
Species & hybrids

Leon Glicenstein Ph.D. began growing orchids in 1954, and became assistant to the curator of orchids at the Brooklyn Botanic Gardens, then Carl Withner, from 1957 to 1960. He has advanced degrees in Chemistry and Horticulture, with an emphasis on plant breeding, cytology, and cytogenetics. Working as a plant breeder for five years at Linda Vista S.A. in Costa Rica, he photographed, in the wild, approximately 80% of the then known orchid species of Costa Rica. He also found new species such as *Telipogon glicensteinii*, *Macroclinium glicensteinii*, *Pterichis leo*, *Stenorrhynchos glicensteinii*, and *Lepanthes glicensteinii*. He won the second American Orchid Society Dillon/Peterson Essay Contest using one of his Costa Rican experiences. He has photographed many of the orchids in the Northeastern United States, Florida, and all of the orchids in California, where he located some taxa not formerly known to exist there. As a respected lecturer, has given numerous conservation oriented programs both nationally and internationally, showing orchids growing in their native habitats. Leon has been an invited guest speaker at both the Vancouver and Miami World Orchid Conferences. He has published numerous articles in the American Orchid Society magazine [including a 10 part series on Jewel and Painted-leaf Orchids with a supplement] and some in the Orchid Digest.

Leon joined Hoosier Orchid Company in September 1998. As a breeder, as well as a grower, of orchids at Hoosier Orchid Company Leon specialized in working with members of the *Pterothalidaceae*, *Zygopetalinae*, *Gongorinae*, *Angraecoid*, *Jewel* and *Painted-leaf* orchids, as well as other groups. He has created numerous novel and new combination not before known, thereby extended our knowledge of generic relationships within the orchid family. Since the demise of Hoosier Orchid Company Leon has been consulting with other orchid companies on growing orchids from seed.

# Show Table Winners by Tom McBride

## Show Table for September 2017

### Novice

1. Phrag. Barbara LeAnn - Marc Kiriou

### Home Grown

1. Hab. Flamingo 'Rubenesque' AM/AOS - Sarah Hurdel & Gary Smith
2. Tie Ascda. Hybrid - Brenda Logan  
Ctsm. Orchidglade 'York' HCC/AOS - Bob Travers
3. Tie Blc. Yen Carona 'Green Genie' - Suzanne Gaertner  
C. Bactia 'Grape Wax' - Kathi Jackson

### Greenhouse

1. Sc. Calypso 'Crestwood' AM/AOS - Clark Riley
2. Hab. rhodochila - The Adamses

### Cattleya

1. Psh. Green Hornet - Owen Humphrey
2. Tie C. loddigesii var. harrisoniana - Bob Johnston  
C. perciviliana - Wanda Kuhn
3. Tie Blc. Toshie Aoki 'Pokai' - Mike Moran  
Pot. Psycho Bride 'NN' - Chris Zajac

### Phalaenopsis

1. Phal. Hybrid - Norma Lynch
2. Tie Phal. heiroglyphica - Kathi Jackson  
Phal. lindenii 'Finally Stripes' - Clark Riley
3. Phal. Leudde-violacea 'Ana Red' - The Adamses

### Paphiopedilum and Phragmipedium

1. Paph. Petula's Presence - Sarah Hurdel & Gary Smith
2. Phrag. (Spot On X hartwegii var. baderi) - Joel Graham
3. Tie Phrag. Acker's Charm - Clark Riley  
Paph FC Puddle 'Superbum' - Bob Travers

### Dendrobium

1. Den. Arunsi Sena - Brenda Logan
2. Den. sanderae var. luzonicum - Suzanne Gaertner
3. Tie Den. sanderae var. luzonicum - The Dagostins  
Den. Amar Queen - Ellie Martin

### Oncidium

1. Mtssa. Shelob 'Okiki' - Eric Wiles
2. Tolu. Genting Orange - Bob Trevers
3. Tie Onc. Heaven Scent 'Redolence' - Joel Graham  
Milt. Earl Dunn 'Dark Lip' - Bob Johnston

### Miscellaneous Hybrids

1. V. Hybrid - Brenda Logan
2. Tie Rnet. Sunrise 'Prasong' AM/AOS - The Adamses  
Ctsm. Susan Fuchs 'Burgundy Chips' FCC/AOS  
Mike Moran  
Monn. Millenium Magic 'Witchcraft' FCC/AOS -  
Chris Zajac

### Species

1. Trgl. brachiata - The Adamses
2. Tie Hab. roebelini - Sarah Hurdel & Gary Smith  
Bulb. hirundinis - Bob Johnston
3. Tie Cnths. amazonica - Norma Lynch  
Psh. cochleata - Bob Travers

### Miniature

1. Ang. distichum - The Adamses
2. Bulb. ocellatum - Bob Johnston

### First Bloom Seedling

1. Paph. Green Envy - Sarah Hurdel & Gary Smith

### Fragrance

1. C. Angel Bells - Clark Riley

### The Judges Choice of the Evening

was...

Hab. Flamingo 'Rubenesque' AM/AOS,  
exhibited by Sarah Hurdel & Gary Smith.

**Thank You** to our judges who were, Ernie Drohan,  
Teena Hallameyer and Bob Johnston.

Our show table had an incredible display of 93  
beautiful flowering plants.

A special **THANKS** to all who make our show  
table a success!

## 2016-2017 Show Table Winners

### Novice

- 1st The Zickuhrs - 30 pts.
- 2nd Ian Douglas, Laurie Nardinelli, Yvette May - 2 pts.

### Home Grown

- 1st Bob Travers - 16 pts.
- 2nd Bob Johnston - 14 pts.
- 3rd John Dunning - 12 pts.

### Greenhouse

- 1st Clark Riley - 24 pts.
- 2nd The Adamses, David Smith - 12 pts.
- 3rd Eric Wiles - 10 pts.

### Cattleya

- 1st Clark Riley - 13 pts.
- 2nd Bob Johnston - 11 pts.
- 3rd Sarah Hurdel & Gary Smith, Eric Wiles - 8 pts.

### Phalaenopsis

- 1st John Dunning - 19 pts.
- 2nd Chris Zajac - 14 pts.
- 3rd Sarah Hurdel & Gary Smith - 8 pts.

### Paphiopedilum and Phragmipedium

- 1st Sarah Hurdel & Gary Smith - 12 pts.
- 2nd John Dunning - 11 pts.
- 3rd Chris Zajac - 10 pts.

### Dendrobium

- 1st Sarah Hurdel & Gary Smith - 14 pts.
- 2nd Chris Zajac - 13 pts.
- 3rd John Dunning - 8 pts.

### Oncidium

- 1st John Dunning - 17 pts.
- 2nd Bob Johnston - 12 pts.
- 3rd Eric Wiles - 10 pts.

### Miscellaneous Hybrids

- 1st John Dunning - 16 pts.
- 2nd Brenda Logan - 8 pts.
- 3rd Eric Wiles - 7 pts.

Cont'd from page 1

## Leon Glicenstein Ph.D

A strong conservationist, Leon was a past chairperson of the American Orchid Societies Conservation Committee, and has been a member of this committee for decades. He represented the AOS at the international conservation meeting in Costa Rica in 2007. In 2013 Leon was elected to the position of "Fellow of the American Orchid Society" for "... outstanding contributions to conservation, hybridizing, and the educational advancement of the Orchidaceae" [AOS's words], an honor given to only nine other people since the inception of the American Orchid Society. Before coming to Hoosier Orchid Company he worked for an internationally known plant breeding company breeding crops such as Chrysanthemum, Carnation, Azalea and Roses.

## Congratulations and Thank You

to the following members that had perfect attendance on our show table last year !

John Dunning  
Suzanne Gaertner  
Kathi Jackson  
Bob Johnston  
Marilyn Lauffer,  
Norma Lynch  
Tom McBride  
Clark Riley  
David Smith  
Sarah Spence  
Bob Travers,  
Eric Wiles  
Chris Zajac  
and  
The Zickhurs.

## Clark's Corner

### SHOWING YOUR ORCHIDS

Why do we show our orchids?

There are many reasons, all with good returns.

1. We show the public a sample of what the orchid world is like. This introduction to the public often results in new members.
2. We learn from each other about the culture and behavior of different kinds of orchids.
3. We learn how to display our own plants more effectively.
4. We learn the proper names of our plants. They must be properly labeled for ribbon and AOS judging.
5. We compete! The plants we enter in shows are eligible for show table points (bonus plants at the beginning of the year), ribbons, and AOS judging at shows like the NCOS and MOS shows.

Submitted by Dr. Clark Riley - House

Marilyn Lauffer - Membership

# Setting up our MOS display for the National Capital Orchid Society Show and Sale

Valerie sorting and listing orchids  
donated by MOS members for the  
exhibit.

Some MOS members having fun  
building the display. This was a lot  
of tedious work. Some members  
were there all day Thursday, and  
back on Monday to take it down.

Look at their end result...

An amazing job Valerie Lowe  
and  
Sarah Hurdel,  
and many thanks  
to their crew.  
As you can see on page 5, it  
paid off.

**Congratulations!**

WOW!!!

# ORCHID AUCTION

Presented by

**The Maryland Orchid Society**

**SATURDAY, NOVEMBER 11, 2017**

***\*NEW LOCATION\****

**Knights of Columbus Hall**

**1010 Frederick Road,  
Catonsville, MD 21228**

**PREVIEW 11:00 AM □ AUCTION 12:00 TO 4:00 PM**

- Hundreds of orchids in bud or bloom from respected local and nationally recognized growers.
- Plus... pre-priced “instant auction” plants.
- Free admission and registration

---

Contact Aaron Webb, 410-419-1312 or visit  
[www.MarylandOrchids.org](http://www.MarylandOrchids.org) for more information.

# THE OCTOBER 2017 AOS CORNER

From the desk of Denise Lucero, Vice-Chair, American Orchid Society Affiliated Societies Committee  
(dluceroaosmembership@gmail.com).

**American Orchid Society**  
Education. Conservation. Research.

## **For newsletter editors:**

Orchid societies are welcome to reproduce the AOS Corner, in whole or in part, in their society newsletters. We encourage promotion of AOS website use by your members.

## **AFFILIATED SOCIETIES**

For all of you who found themselves in the path of Hurricane Irma, we hope this finds you safe and sound having survived the catastrophic event. We were fortunate at AOS Headquarters and the AOS Library and Archives, located in the Fairchild Tropical Botanic Garden at Coral Gables, Florida, to suffer no major damage inside the buildings and are now back to business as usual. We are blessed to have a staff that truly cares about the well being of our organization and are grateful for their extraordinary efforts during this terrible event. Unfortunately, the Gardens suffered all the devastating effects of Irma and have a long path to the restoration of many felled trees, damaged collections and grounds.

After the September AOS Corner was distributed we received a number of e-mails from societies requesting that their account contact information in the AOS records be updated. Thanks for taking the time to check that we have current contact information for your society. If you didn't have a chance, please take a minute to check what we do currently have. Log into your society account to update from the AOS website login page: <https://secure.aos.org/login.aspx?ReturnUrl=http://www.aos.org>

We hope your passport is current, you've made reservations, and you've registered to join us at the 22nd World Orchid Conference to be held in Guayaquil (The Pearl of the Pacific), Ecuador in November. Although small, Ecuador is one of the most diverse countries on the planet. Over 17,000 species of plants have been classified and described in the country, 4,235 of which are orchid species. So how fitting that the WOC is being held in Ecuador! The Conference will cover three main topics—science, horticulture and conservation biology—via lectures over four days. There will also be day-long symposia focusing on Andean orchids and the genus *Vanilla*. This will mark the first time that this most commercially important orchid genus has been the subject of a symposium at a World Orchid Conference. Visit <http://www.woc22.com/> for more information.

If you're unable to make the trek... You can still join the Town Hall Meeting from Ecuador with George Hatfield on November 8, 2017. You can learn about what's been going on in the AOS and about the direction we are headed. Details and the registration link are listed below in the Webinar Section.

Thanks for all the pics that you are sending in for the InstaGram feed. It's really wonderful to see such a variety of everything orchid that's enjoyed around the globe. Please continue to send your photos and short videos to: [americanorchidsociety@gmail.com](mailto:americanorchidsociety@gmail.com). Be sure to send a short caption explaining your photo. Also, if you are bilingual and can include your caption in English plus your other language(s)—it will help with our universal outreach.

Don't forget to check-in on our Facebook Group Page for Affiliated Societies of the American Orchid Society. Our administrator, Chad Brinkerhuff, monitors the feed and is a great resource for all that the AOS has to offer. Keep us up to date on what's going on at your local society and let us know how we can help you. If he doesn't have the answer you need, he will find it for you.

If you have an upcoming show, remember to check out the "Guide to a Successful Orchid Show" which can aid even the most experienced to stay organized and on-track while planning a show. Also, remember we have an updated List of Speakers to help you plan society meeting programs. You will now find the Affiliated Societies link on the home page under the "About Us" heading.

Here's the link to check it all out: [AOS.org](http://AOS.org)

## **EVERYTHING ORCHIDS**

Here's an article about "Bud Blast" by Susan Jones that appeared in *Orchids* magazine back in July 2003. It's just as useful today as it was back then.

(Please note that the AOS does not endorse the use of any specific chemical agents. If you choose to follow recommendations given by a contributor make sure to adhere to all local, state and federal laws in the use of these agents. Take the time to learn how to use them safely and follow manufacturers usage instructions.)

## **When Good Orchid Buds Turn Bad**

It can be heartbreaking to watch helplessly as long-awaited orchid buds brown, die and drop instead of becoming those much-anticipated flowers. Bud blast, when buds wither and fall from an otherwise healthy plant, may occur through any

of a number of causes. Buds are the most sensitive part of an orchid, and are easily affected by unsuitable conditions in the growing environment. Cattleyas, phalaenopsis and dendrobiums seem particularly susceptible to this problem. The most frequent reasons for this are as follows:

**WATER** Under- or overwatering is a common cause of bud blast. If a plant becomes too dry, it may withdraw moisture from buds as a survival mechanism. Overwatering can damage the orchid's root system, with the end result being a lack of water to the plant. As with under watering, when the plant is unable to absorb sufficient quantities of water, it will withdraw water from the buds, bringing about their demise. Budding Cattleyas are particularly sensitive to overwatering, which can cause buds to blacken and die while still in their sheath. Water that is allowed to sit on buds or in bud sheaths provides the perfect environment for fungi and bacterial growth, generating rots that will blast buds. Watering with cold water can shock a plant, causing bud drop.

**TEMPERATURE** Temperature extremes or rapid temperature changes are often a culprit in bud blast. If a budding orchid receives drafts from a window, an air conditioning or heating vent, or even a rush of air from a hot oven, it may drop buds. Similarly, buds may blast when exposed to temperature fluctuations that occur when taking a plant in from the car or outside during hot or cold weather, bringing plants back into a heated house after a summer outdoors, or temperature extremes caused by running heating or air conditioning for only part of the day.

**ATMOSPHERE** Orchid buds are sensitive to fumes from paint, natural gas leaks and other chemicals. Once pollinated, flowers generate methane gas, causing them to collapse and saving energy for seed production. Methane or ethylene gas from other sources may also trigger bud or flower collapse. Ethylene gas given off by ripening fruit; gas leaks; inefficient burning of gas stoves or heaters; engine exhaust; cigarette, cigar or pipe smoke; open fires; smog or air pollution can also cause bud blast and age and distort open flowers.

**LIGHT** If lighting available to its developing buds is inadequate, an orchid won't flower properly. Low lighting can cause buds to abort. Too much lighting may also cause trouble; direct sunlight on developing buds can overheat and desiccate them, leading to bud blast.

**CHEMICAL DAMAGE** Fertilizer, fungicide or pesticide applied at dosages above a plant's tolerance or in a manner inconsistent with manufacturer's instructions may damage buds, causing them to drop.

**HUMIDITY** Developing buds need high humidity. If their environment is too dry, or the ambient humidity fluctuates a great deal, buds may be adversely affected and drop.

**INSECTS** Aphids and thrips can cause bud blast. These insects feed on flowers and flower buds, sucking the plant juices. The buds of infested plants fail to develop properly, dropping from the plant or opening to damaged and disfigured flowers. Thrips can be controlled using Diazinon or Malathion. Aphid control often involves not only eliminating the aphids themselves, but also the ants that farm them. Insecticidal sprays and sugar-based ant baits are recommended. For a few aphids, dab with a cotton swab soaked in rubbing alcohol. Other means of control include insecticidal soaps, horticultural oils (Neem or Sunspray), growth regulators and chitin inhibitors (Enstar II), Pyrethrum-based insecticidal sprays, stronger insecticides (Malathion), and systemic insecticides (Orthene, Shield). Repeat any treatment method twice after the initial application at seven- to 10-day intervals to kill successive generations. Test new controls on a small population of plants before widespread use. When using insecticides, check labels to be certain the insecticide works against the particular pest and that it is approved for use on orchids. Always use any chemical in strict accordance with manufacturer's instructions.

**GENETICS** Occasionally, even under perfect cultural conditions, an orchid will continually abort buds. There may be a genetic mutation responsible for its inability to produce viable blooms, in which case the plant should be discarded.

Susan Jones was the assistant editor of *Orchids* and editor of the *Awards Quarterly* during the late 1990s and early 2000s.

#### **UPCOMING WEBINARS**

Judging Pleurothallids with Esteban (Steven) Gonzales

Judging Pleurothallids with Esteban (Steven) Gonzales Wednesday, October 4, 2017 @ 8:30 PM - 9:30 PM EDT

Judging - *Members only*

Pleurothallis ringens 'Bryon Rinke' CBR/AOS; Photographer: Bryon Rinke

Join Esteban (Steve) Gonzalez and review how to judge those beautiful and diminutive pleurothallids.

Register now using this link: <https://register.gotowebinar.com/register/9119068349037565443>

American Orchid Society: Greenhouse Chat with Ron McHatton Tuesday, October 12, 2017@ 8:30 PM - 9:30 PM EDT  
*Open to All*

Please join Ron McHatton, American Orchid Society Director of Education and Science Officer, who will discuss a variety of topics on orchid culture based on question submitted by attendees. Please send your questions to [stilliltsch@cox.net](mailto:stilliltsch@cox.net) by Sunday, October 10th. Register now using this link:

<https://register.gotowebinar.com/register/4527748585663490051>

Town Hall Meeting from Ecuador with George Hatfield  
Wednesday, November 8, 2017 @ 8:30 PM - 9:30 PM EDT *Open to All*

Find out the exciting things happening with the AOS. Don't miss the AOS Town Hall Meeting & Board Meeting from the WOC22, in Guayaquil Ecuador with George Hatfield, AOS President.

Register now using this link: <https://register.gotowebinar.com/register/8409334692352712705>

Note: After registering, you will receive a confirmation email containing information about joining the webinar.

### **WHAT ARE WEBINARS?**

Webinars are an Internet conference where you can hear the speaker and view his presentation, ask questions, and hear interactions from other members of the audience. You can join either on your computer or by phone. You can join from anywhere, via your Mac, PC or even your mobile device. Audio is included, so attendees can phone in or use VoIP (Voice over Internet Protocol). You will need a microphone for your computer to use VoIP.

### **WANT TO LEARN, BUT CAN'T MAKE THE DATE?**

The live webinars will be recorded and posted on the AOS website, where you will find a link allowing you to view the webinars at your convenience.

### **YOUR SOCIETY CAN EARN FREE AOS MEMBERSHIP EXTENSIONS:**

Encourage new membership to AOS. Affiliated societies can now earn a one-month extension of their AOS society membership for each new AOS member that they refer (note: membership renewals don't count). For now, the only way to take advantage of this program is to download and print the AOS Membership Application Form, check the box "yes" to indicate that you are a member of a local orchid society, most importantly fill in the NAME of your orchid society, and mail the completed application and payment to: AOS, 10901 Old Cutler Road, Coral Gables, Florida 33156.

With twelve new AOS members, your affiliated society can have a FULL YEAR OF FREE AOS membership! Be sure to have membership applications with your society's name already filled in and available at your club meetings!

Remember to let your members know, we want to sweeten the deal and give them every possible reason to join AOS today! If they become an American Orchid Society member, they have considerably more resources at their disposal making growing orchids even more enjoyable and successful.

Digital Access To Over 350+ past issues of Orchids magazine extending back to 1932!

**THE OCTOBER ISSUE OF ORCHIDS MAGAZINE** will feature great articles and beautiful pictures on:  
Our Annual Supplemental Issue - This year's topic; The Genus Phalaenopsis

- Orchids Illustrated – Pogonia
- For the Novice - Winter Dormant Orchids
- Genus of the Month – Gomesa
- Saving the Rare Young Palm Orchid
- Rainwater Harvesting
- Frederick Sander
- A Visit to Papua, New Guinea
- Paphiopedilum violascens 'Indian Spring' HCC/AOS; Photographer: James McCulloch

### **LSO FEATURED IN ORCHIDS MAGAZINE!**

16-page award gallery of breathtaking pictures of recently awarded orchids.

### **RECENT ORCHID AWARDS PICTURES ON THE AOS WEBSITE:**

See fabulous pictures of the most breathtakingly beautiful orchids receiving awards from the AOS! Visit the new "Latest Orchid Awards" page on the AOS website to enjoy these stunning photographs! Click on the thumbnails to see them in larger format. *Free to members and nonmembers.*
